- **Comparison of Upper Front Rod on Linen Shelf**
- SCHULTE
- Rubbermaid
- Closet Maid

This is a true scale comparison of uncoated rods.

### Installation Techniques

- Full line of Templates for most installation situations
- Back Clip spacing at 11”
- Support Braces should be placed at 42” or less. In heavy load areas, spacing should be placed at 24”
- Versa Clip or Strap Back Clips will be needed over Support Braces and open ended Shelving
- Limited Warranty
