Throughout Your Home

SCHULTE
STRONG HOME STORAGE

**From the master bedroom to the office
to the pantry to the garage, freedomRail®
brings the lasting value of a truly
adjustable storage system to
every room of your home.**

A Revolution Made Easy

freedomRail lets you take control of home organization from idea to installation. Truly adjustable. Designed and engineered for active families. Solutions as unique as you are. It's the storage solution home owners only dreamed of – until now.

and can be moved up, down or side to side as storage needs change. freedomRail is the one-stop storage solution for organizing every room of your home.

As Strong as the Reputation We've Built

Best of all, freedomRail is SCHULTE® Strong. With 30 percent more steel and patented hardware, it holds more weight – 75 pounds per linear foot – than any other rail-based system.

That means freedomRail will last through every life stage – the terrible two's, tough tweens, active adults and everything in-between. If your storage needs change once, twice, three times – no problem. freedomRail changes with you.

Take control of home organization today with freedomRail throughout *your* home.

◀ Walk Into Organization

A freedomRail walk-in closet allows you to use every inch of existing closet space. Multiple sections of hanging space, O-Boxes, Cubbies for shoes and the new Double Hang O-Box create enough storage space to eliminate the need for a dresser in the master bedroom. Create the ultimate organization solution with wood components in Cherry, Maple (shown) or White.

Custom Fit ▶

freedomRail has the look and feel of a custom-built closet with wood finishes that mirror today's trends in fine furniture. freedomRail storage solutions can bring beauty and functionality to your life and add value to your home.

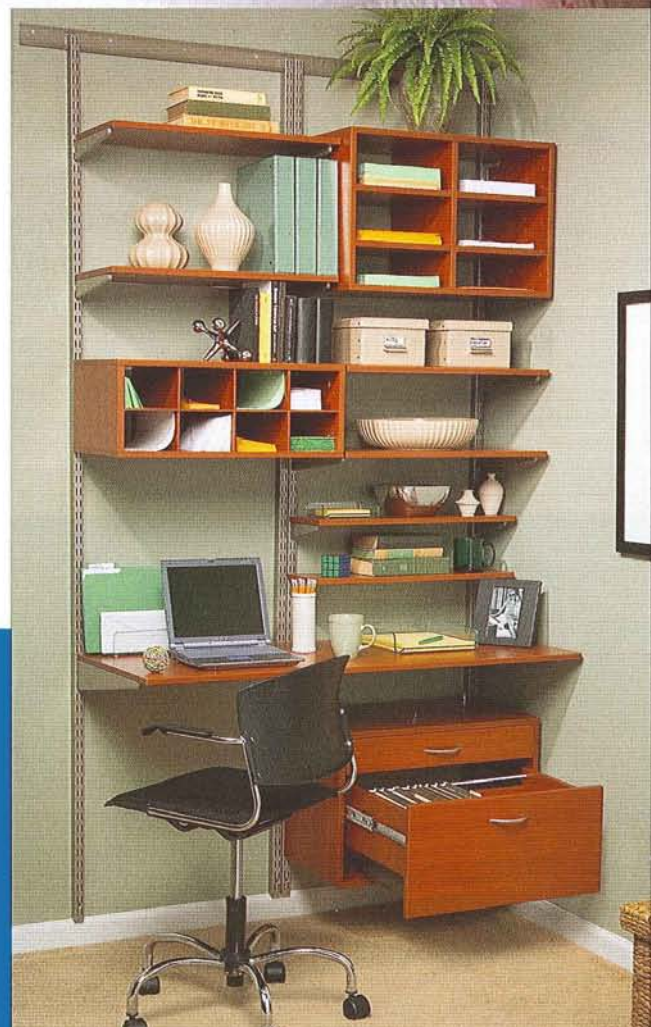

▲ Petite Princess

With kids, the trick is to think ahead. In a flash, your petite princess will become a tween or a teen. With freedomRail, a child's closet built with triple hang can easily adjust to a double-hang arrangement.

Getting Down to Business ►

Paying bills and organizing papers is a breeze with freedomRail. Components like the Paper Insert and O-Box Hanging File make it easy to get down to business.

freedomRail is revolutionary because it's the only storage system that's truly adjustable, allowing you to add or change components in an instant.

▲ Pantry Perfection

Becoming "chef extraordinaire" is a cinch with freedomRail in your pantry. Profile shelves help maximize storage space and tight mesh shelving keeps everything upright.

Over the Door ►

The Over the Door product line creates newfound storage in small spaces – like behind the door – allowing you to organize items throughout the home. Over the Door is available in White for inside the home or Granite for the garage.

Clean Sweep ▶

Make your laundry room work as hard as you do with freedomRail. Profile shelving keeps cleaning supplies upright and in easy reach, and the Chrome Rod holds freshly-pressed shirts until they can be stored in the closet.

▼ The Window to Your Neighborhood

Make your garage the envy of the neighborhood with freedomRail Garage. freedomRail Garage withstands the use and abuse of active families and is the perfect solution to store sports equipment, lawn care items, tools and seasonal items. And like all freedomRail products, freedomRail Garage components are completely adjustable.
