

IDI EXCLUSIVE KRENDL DV18 VACUUM + DEFENDER

ITEM #: DV18 PACKAGE

DV18 VACUUM + DEFENDER:

THE DV18 Gas Vacuum is the first of its kind with the debris containment system integrated directly with the vacuum. The DV18 features a steel fan and chamber and is powered by a rugged 18hp Briggs & Stratton V-Twin engine. This vacuum is intended for removing all types of blown insulation and for recycling damp spray.

- 6" (15.2cm) inlet and outlet allows for substantial volume
- Engineered and designed to eliminate engine vibration and fan blade stress
- 12 volt Magnatron® Electronic Ignition system
- Input/Output safety switches
- Hour meter/tachometer monitors engine use and rpm
- Abrasion resistant steel fan chamber
- Durable powder coat finish
