

MAY SPF PROMO ALLEGRO BLOWERS + FILTERS

WWW.IDI-INSULATION.COM

10% OFF ALLEGRO BLOWERS AND FILTER

VENTILATION BLOWERS

These super quiet Allegro blowers are lightweight and housed in a corrosion, UV, and chemical-resistant "safety orange" polyethylene material. There is a molded carry handle for easy portability. The 8" models feature a 1/3 HP motor while the 12" models feature a 1 HP moto. All blowers are CSA Approved.

The 9533/9543/9553 series features a quick-connect clipping system allows workers to attach canister to input side for extraction or output for ventilation. 25" duct stores conveniently in canister. The canister can be easily removed to use the blower by itself. Blowers can be sold by themselves—ask your IDI Sales Rep for details!

The 9539-08, 9539-12, 9539-16 series are ideally suited for larger confined spaces. Stackable design allows for multiple units to be used in minimum space and ducting can be added to both inlet and outlet sides of the blower.

Part Number	Description
9533-25	8" Plastic Axial Blower w/Canister & 25' Ducting (CFM: 1842/1004/933)
9543-25	12" Plastic Axial Blower w/Canister & 25' Ducting (CFM: 831/709/583)
9539-08	8" Industrial Plastic Blower (CFM: 865/550/350)
9539-12	12" Industrial Plastic Blower (CFM: 2180/1330/1255)
9535-12	Air Bag 12, 15' Ducting, 1840 CFM
9535-12L	Air Bag 12, 25' Ducting, 1840 CFM

BLOWER FILTER BOX

Hook up your existing blower with 8" ducting to the back of our Blower Filter Box. It filters the ambient air, particulates and dust from or to the blower through the Filter Box. Can be attached on either inlet or outlet side of blower for positive or negative filtration. Made of galvanized sheet metal and operates with up to two filters inserted at once. One filter included.
