

NATURAL  
POLYMERS™

**ULTRA-PURE®**  
Spray Foam Insulation

**COMFORT  
CLEAN &  
SIMPLE**

## ODOR SCAVENGER™ TECHNOLOGY

We start by sourcing raw materials naturally low in odor-causing VOCs, then add Odor Scavenger™ technology that targets and captures specific molecules, helping to minimize off-gassing during and after application.<sup>1</sup>

**S.A.F.E.™**  
**INSTALLERS**  
SYSTEM AUTHORIZED  
FOAM ENGINEER

## S.A.F.E.™ EDUCATED INSTALLERS<sup>3</sup>

In order to install Ultra-Pure® products, experienced spray foam technicians must complete our S.A.F.E. (System Authorized Foam Engineer) education program. Following S.A.F.E.™ protocols ensures Ultra-Pure® spray foam insulation is properly installed to facilitate quality control, product performance and indoor air quality.

## FLEX-TEMP™ FORMULATIONS

Engineered to help simplify on-site calibrations with the same performance year-round, so sprayers can spend less time adjusting machines and more time getting the job done.

Ultra-Pure® Spray Foam Insulation

# THE CLEAN COMFORTABLE CHOICE IN SPRAY FOAM

Using Ultra-Pure® spray foam doesn't mean **compromising indoor air quality.** Ultra-Pure® spray foam is designed to minimize odors and VOC emissions before, during and after application. Our exclusive formulations and S.A.F.E.™ educated contractors enable builders to comply with demanding energy codes while helping to minimize off gassing and protect indoor air quality.<sup>1</sup> Our FlexTemp™ formulas are designed to deliver the same performance year-round, so you can expect smooth, inspection-ready results on every job. Ultra-Pure® spray foam with Odor Scavenger™ Technology is a high performance insulation designed to deliver dependable yield in the field and contributes to healthier indoor air quality.<sup>2</sup>

## BIO-BASED, LOW VOC<sup>1</sup> FORMULATIONS

Ultra-Pure® spray foam is GREENGUARD Gold Certified and formulated using raw ingredients that are naturally low in odor-causing VOCs.

- **SMOOTH,  
CONSISTENT SURFACE**
- **ADVANCED THERMAL  
PERFORMANCE**
- **CONTRIBUTES TO  
HEALTHIER AIR<sup>2</sup>**
- **GREENGUARD  
GOLD CERTIFIED**

## SMOOTH, TACK-FREE FINISH

Rises readily and evenly without excess moisture, for a fast first pass that won't overheat. It goes in smooth with less trimming, and it dries with a tack-free finish that resists dust and debris for clean, inspection-ready results.

# MORE SOLUTIONS HIGHER STANDARDS

Natural Polymers products give discerning builders and insulation contractors a solution they can feel confident about using and recommending for applications where spray foam is the right choice. Featuring innovative chemistry and a low-VOC product, Natural Polymers Ultra-Pure® spray foam products align with Owens Corning's rigorous standards for performance, safety and environmental impact.
