

# MONTHLY PROMOTIONS

## JANUARY

**DO YOUR OLD HOSES  
SHRINK LIKE THIS?**

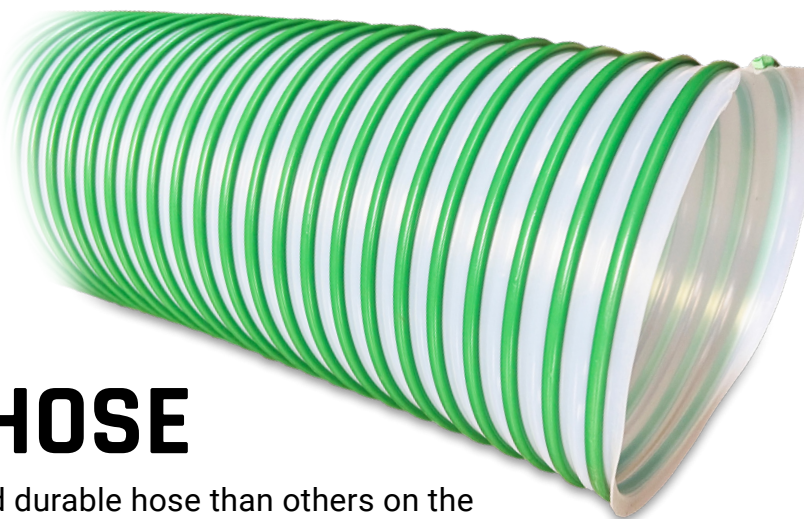

**IF SO, WE HAVE A SOLUTION  
FOR YOU**

**5% OFF**

Orders of 150' of Hose or More.

## **NEW 6"** **VACUUM HOSE**

Introducing a more firm and durable hose than others on the market. This prevents it from shrinking like an accordion, making it a great replacement for your current hose!

**#1010179**

**THIS HOSE IS AMAZING COMPARED  
TO THE ONE WE ORIGINALLY HAD.**

Matt – USA Insulation

"Our previous hose only came in 25-foot sections so it was much more difficult to connect and wind up compared to the newer option, which is offered in 50-foot sections... The older 25' hoses would shrink considerably, at times, one 25' hose section would shrink all the way down to 5'-10' and we would lose suction power. With the new hoses there isn't any shrinkage, and in turn we don't lose suction power. They are heavy duty hoses that work great and ones we are very happy to have."
